Kfz-Gutachter Bobb

Karlsruhe, Germany · 7 November 2026

Perplexity Sonar recommended the business.

We asked the same question of two AI services and checked both answers.

What question did we ask?

„Welche Anbieter würdest du für „Unfallgutachten“ in Karlsruhe, Deutschland empfehlen?“

The question was asked in German and did not include the business name.

What did each AI answer?

Perplexity Sonar	Explicitly recommended Kfz-Gutachter Bobb.
GPT (OpenAI API)	The business name we checked did not appear in this answer.

What can you do next?

Open the sources in the full AI answer. Look at the information customers can find about the service and its location. If an important fact is missing from your website and you can back it up, add it.

Ask the same question again later. The AI can name different businesses when the question, place or date changes.
